April 29-30, 2027

GMT +2
(Paris, France)

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

About Webinar

For those who cannot join us in Paris — and for those who simply want to extend their engagement with the world's leading women's health conference — the **5th International Webinar on Gynecology and Obstetrics** will bring the full power of Gynecology Conference 2027 directly to your screen. To be held virtually on **April 29–30, 2027** via **Paris Standard Time (GMT+2)**, this dynamic two-day online event will be far more than a live stream. It will be a complete, fully interactive scientific experience designed to deliver the same quality of knowledge exchange, professional connection, and clinical inspiration as the in-person conference from wherever you are in the world...
